OPTIONAL SPARES AND ACCESSORIES

Items	For Water Still 2 lit/hr #7652	Rate	For Water Still 4 lit/hr #7655	Rate
Heater	#S4233		#S4239	
Gasket	#S1211		#S1212	
Flow Rate Meter	#S3871		#S3873	

Stone-fin™

#7674

WATER STILL Fill it, Shut it, Forget it

STONE-FIN Water Still is ideal for laboratories requiring up to 10 litres of distillate a day & also ideal for double distillation.

Stone-fin Advantages:

- ❖ Eco friendly design - eliminates wastage of water.
- ❖ An innovative stand alone design which works without running water connection.

Construction / Standard Features:

- ❖ Clear bottom Boiling chamber - long life heater externally fitted - enabling easy cleaning and no heater scaling problem.
- ❖ Connection to a 5 ampere wall socket allows easy and anywhere connectivity.
- ❖ Unattended operation - shuts itself off after completion of distillation.
- ❖ Stainless Steel Chamber with stainless steel condenser piping.

Model	Description	Capacity	Rate
#7674	Water Still - Stand Alone	Approx. 4 lit / 4 hrs	
#S4259.HS4.1.0	Spare heater for Water Still- Stand Alone	1kW	

LAPIZ®

#0671

COLONY COUNTER

LAPIZ Advantages:

- ❖ Re-designed model with advanced pressure sensors enables usage of any commercially available hard tipped marker pen.

Construction / Standard Features:

- ❖ Circular tube and powerful magnifying lens - reduces operator fatigue.
- ❖ Wouffhugel grid glass plate.
